

SMOOTH SLIDING WINDOW SCREEN

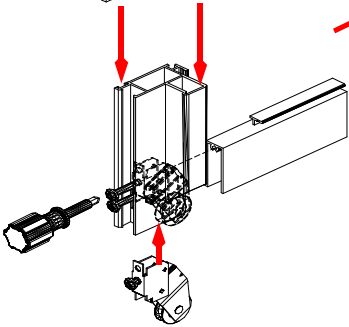

HERITAGE sliding window screens also feature an extruded aluminum frame. This design provides a superior seal and added strength to prevent twisting and bending. HERITAGE sliding window screens include proprietary special hardware and assure a proper paint match with the windows.

WEATHER STRIPPING

Made of durable, longer lasting Fin-Seal for proper seal and good looks.

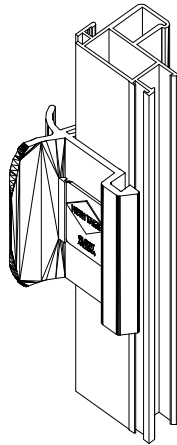

EXTERIOR PULLS BUILT INTO EXTRUSION

TWO ADJUSTABLE BALL BEARING STEEL ROLLERS

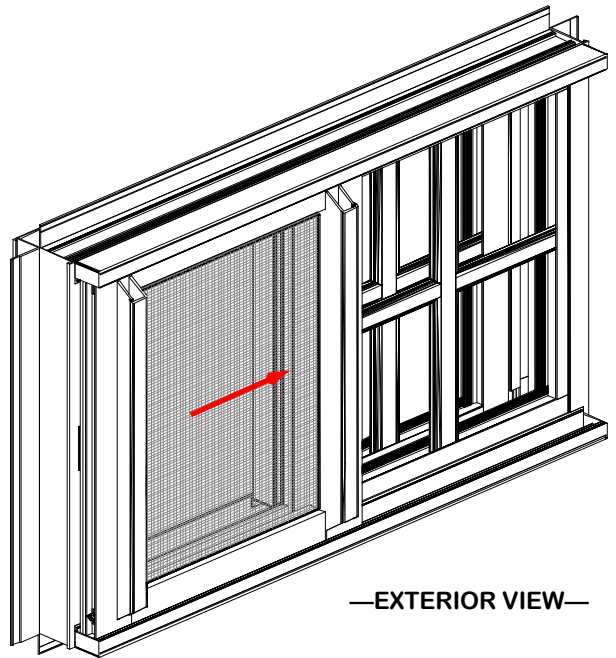

(one in each lower corner) which will allow the screen to glide smoothly when opening and closing the screen.

THE "STANDARD BUG SCREEN" THAT SETS NEW STANDARDS

HERITAGE window screens also feature an extruded aluminum frame with a full flange. This design provides a superior seal and added strength to prevent twisting and bending. HERITAGE window screens include proprietary special hardware and assure a proper paint match with the windows.

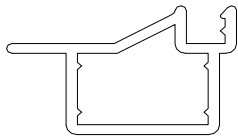

Stiles are cambered individually providing a tight mesh screen

PROPRIETARY LATCHING MECHANISM

Window screens can be removed and reinstalled by a homeowner from interior and exterior. A simple touch of the latching mechanism from the outside snaps them securely in place on the inside.

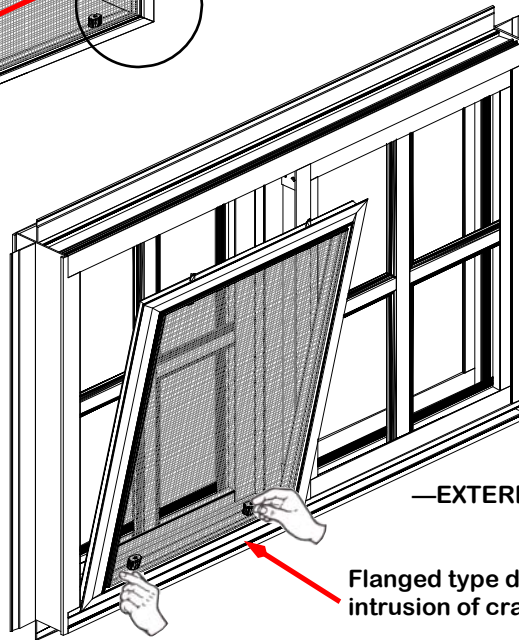

HERITAGE EXTRUDED DESIGN

For added strength

TYPICAL INDUSTRY ROLL FORMED DESIGN

—EXTERIOR VIEW—

Flanged type design reduces intrusion of crawling bugs
